## Agenda Caption

This is a work session item regarding an ordinance to consider amending the Amarillo Municipal Code, Chapter 4-2, Signs, to provide revisions of sign definitions and temporary sign regulations.

## Agenda Item Summary

Ordinance 7201 was passed in December 2009 and amended the City's sign ordinance. Within the new sign ordinance were regulations for temporary signs. Portable temporary signs were allowed either by:

- a property owner obtaining a "limited temporary" sign permit for 30 days;
- an "annually renewable temporary" sign permit, which allowed a portable sign to be displayed for three 60 day periods but had to be taken down for a period of at least 30 days between each 60 day period; and,
- A "banner permit" allowed the display of a banner for 365 days.

These amendments are being proposed as a result of numerous complaints from business owners who use temporary signs and who have commented that the current process of permitting and displaying temporary signs is very burdensome and unenforceable. City staff has commented as well on the arduous permitting and/or inspection process for such signs and believe that changes are necessary.

As a result, Planning staff last year discussed the issue with numerous business owners, sign companies, and City staff regarding the specific issues with the current process and believe that the proposed amendments address the current permitting and display problems while still attempting to maintain the original intent of the specific temporary sign regulations and the adopted sign ordinance as a whole.

An itemization of the changes encompassed within this series of amendments is listed below:

1. Definitions – a new term, "feather flag", is defined in this amendment, while the definition for "portable sign" is modified to include "feather flag"; also, the definition for "temporary sign" is modified, to clarify that portable signs and banners are types of temporary signs.
2. Non-conforming Signs – this section is modified to allow upgrades to operational components of existing non-conforming EMC signs without requiring the entire sign be updated to currently adopted standards.
3. Temporary Signs, Applicability – this section is modified to add a third category of applicability for flags, streamers and pennants associated with a promotion or special event.
4. Categories of Temporary Sign Permits – this section is modified to remove banners from sign types requiring permits, as they would be included within the annually renewable temporary sign permit.
5. Time Limitations – this section is modified to change the maximum time allowed for placement of a temporary sign with required permit from 60 days (240 days aggregate) to 365 days. Also, the maximum time allowed for placement of a "limited" temporary sign (a new classification) is

## Agenda Transmittal Memo

30 days. Both would require permits, and shall be removed once the permit has expired, if not renewed.

6. Banner Time Limitations – this section is modified to remove the existing time limitation of one year for banners, and renumbers item d as item c in its place.
7. Temporary Signs, Renewable Annually – this section is modified to remove reference to what a temporary sign is (to avoid conflict with the term as defined in Section 4-2-2); to remove reference to a legal business (simply relocated to the following section); and, revising 3) to refer to “temporary signs that are permitted on an annual basis”, necessary because in these revisions, a “limited” temporary sign is treated differently.
8. Temporary Sign Standards – this section is modified to:
  - a. relocate the language mentioned in Item 7 above on “legal business”,
  - b. to apply existing size limitation specifically to banners,
  - c. to increase the number of signs allowed per business *from*: 1 temporary (not to exceed 2 per development, or for developments with more than 300 linear feet of street frontage, 1 per business not to exceed 4) *to* 1 portable and 1 banner (not to exceed 2 of each type per development, or for developments with more than 300 linear feet of street frontage, 4 of each type),
  - d. to require banners to be affixed to a building, but not allowing them to be affixed to any other permanent or temporary structure, motor vehicle, or fixture,
  - e. to add size limitations for feather flags, and
  - f. to allow alternative securing methods of portable signs.

Furthermore, this section is rearranged in order to address general standards for temporary signs, then additional restrictions specific to portable signs, and lastly, additional restrictions specific to banners.

### Community Engagement Summary

Public comments on this subject have been solicited and received over the past two years. Staff has solicited comments, specifically on the temporary sign permitting and display regulations, from small businesses, large retail businesses, and sign companies. Planning staff has also solicited comments from Building Safety staff which are responsible for permitting and enforcing temporary sign permits.

Most recently, a subcommittee to examine the temporary sign issue was created at the direction of Mayor Harpole and Councilmember Burkett in July of 2016. The subcommittee met four times (twice in July, once in August), ending with a final meeting in January. The subcommittee specifically discussed various aspects of temporary signs and the permitting process.

## Agenda Transmittal Memo

---

The subcommittee included the following members:

- Kenny Bentley and Page Butler, local temporary/portable sign company;
- Jentee Patel, local hotelier;
- Chris Fluhman, local temporary/portable sign company;
- Denise Blanchard, AISD;
- Michael Goff, local sign company;
- Tony Freeman, local printing company;
- Mayor Harpole, City Council; and,
- Councilmember Burkett, City Council.

One focus of discussion was the inadequacy of the current regulations pertaining to feather flag signs. Another major focus of discussion was the confusion created by the current regulations and the minimum standards for both the display of signs and the time between display periods – creating frustration for customers and staff alike. The final focus of discussion was the difficulty of administering the current regulations and the recognition by the subcommittee that any proposed changes would need to be enforceable.

---

### City Manager Recommendation

The subcommittee, by consensus, **recommends approval** of the amendments. Staff has prepared the draft ordinance and transmittal memo based on the content of their proposed amendments.

The city staff review is as follows:

1. Regarding change 1, staff agrees clarification and the addition of the term “feather flag”, is advisable and **concurs with the subcommittee.**
  2. Regarding change 2, staff does acknowledge the possibility that this amendment would increase the lifespan of the current non-conforming signs and provides opportunity for transitioning non-functional signs to an updated, fully functional, sign, and **concurs with the subcommittee.**
  3. **Regarding change 3**, staff agrees the added clarification addressing this third category is needed for signs exempted and **concurs with the subcommittee.**
  4. Regarding change 4, staff agrees the added clarification is needed to avoid confusion between temporary signs, portable signs, and banners, and **concurs with the subcommittee.**
  5. Regarding change 5, staff recognizes the probability of a business owner simply renewing their annual permit every year, resulting in a sign which may be represented as “temporary”, but in practice, is actually “permanent” in nature with only a temporary permit. First, the existing sign regulations already allow a wide variety of permanent signage, with generous allowances for size. Essentially, this amendment would allow additional permanent signage by skirting the existing limitations, therefore increasing the visually cluttered environment which the ordinance was created to address. Second, the purpose of Amarillo’s sign ordinance – as stated in Section 4-2-1 - is to promote safety, the efficient transfer of information, and the enhancement of appearance and economic values of the landscape; creating the ability to continuously add to signage already located in and around the city arguably works at cross purposes with these adopted purpose statements. As such, staff **expresses concern with the subcommittee’s recommendation.**

## Agenda Transmittal Memo

- 
6. Regarding change 6, staff has the same concerns as in change 5, and staff **expresses concern with the subcommittee's recommendation.**
  7. Regarding change 7, staff understands the need for clarity and **concur with the subcommittee** on the proposed changes with the exception of the proposed change to item 3), for which staff **expresses concern with the subcommittee's recommendation,** as it directly relates to the concerns articulated in changes 5 & 6.
  8. Regarding change 8, staff **concur with the subcommittee** on a, b, d, e, and f. Staff **expresses concern with the subcommittee's recommendation** on c, for the same reasons articulated for changes 5 and 6.

Rezoning of Lot 28, Mays Ranches Unit No. 21, in Section 228, Block 2, AB&M Survey, Randall County, Texas, plus one-half of all bounding streets, alleys, and public ways to change from Multiple Family District 1 (MF-1) and Light Industrial (I-1) to General Retail (GR).

### Agenda Item Summary

Staff's analysis of zoning requests begins with referring to the Comprehensive Plan's Future Land Use and Character Map in order to identify what it recommends for future land uses. Staff also considers how any zoning change would impact the Comprehensive Plan's adopted Neighborhood Unit Concept (NUC) of development - whereby non-residential land uses are encouraged at section line arterial intersections with a transition to residential uses as development occurs away and inward from the arterial intersections. Staff also considers the principles and recommendations laid out within the Comprehensive Plan, as well as existing zoning and development patterns in the area.

The future land use for this particular property is General Commercial. This entails a wide range of commercial retail and service uses, at varying scales and intensities depending on the site. It also includes office uses, public/institutional uses, and parks or public spaces. The characteristics of General Commercial are auto-oriented, which these can be offset by enhanced design, landscaping, reduced site coverage, and well designed signage to name a few. This applicant's request is consistent with General Commercial.

As for the Neighborhood Unit Concept that was adopted in the 1980s, this request does not follow the NUC per say but that is mainly because Interstate 27 (I-27) cuts right through this Section Map (L-14). This allows for the retail and commercial development patterns to follow along this interstate route while the rest of the section adheres to the NUC pattern. This property is in an area that follows the I-27 corridor. Therefore, staff believes this property is in compliance with the NUC development pattern.

The adopted Comprehensive Plan contains a number of action strategies that are to be followed when making decisions about land use, development, and other community elements. These include:

- Protection from Encroachment – neighborhood integrity (pg. 2.24)
- Compatibility of Neighborhood Commercial/Services Uses – restrict certain commercial uses that, by their very nature, should be not be permitted in close proximity to homes (pg. 2.25)

Currently the recently replatted property is split right down the middle with the northwest side of the property zoned Multiple Family District 1 (MF-1) and the southeastern side of the property zoned Light Industrial (I-1). The issue of how to proceed was discussed by staff with the applicant; simply put, this

rezoning will consolidate the property design standards under one set of rules while also creating a reasonable zoning district transition between residential and industrial districts as recommended by 4-10-104(b)(3) of the Zoning Ordinance.

In summary, the application is consistent with the FLUC map, the Neighborhood Unit Concept, the principles of the Comprehensive Plan, and the zoning & development patterns of the area - justifying a recommendation of approval.

---

## **Requested Action**

The applicant is requesting the rezoning of 0.51 acre tract of land, previously zoned half Multiple Family District 1 (MF-1) and half Light Industrial District (I-1), to change to General Retail District (GR), in order to consolidate design standards on their property and create a reasonable zoning transition between residential and industrial zoning districts as recommended by staff.

WHEREAS, this Council finds that the notice of the Building Official to make the structure safe either by repair or demolition and removal has not been complied with; and,

WHEREAS, this Council finds that the notice of the Building Official to remove rubbish, trash, solid waste and/or unsanitary matter has not been complied with;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AMARILLO, TEXAS:

SECTION 1. The City Council finds that the alleged nuisance condition, address thereof, the legal description of same, and the Interested Persons are as follows:

- ADDRESS: 205 N Fairmont St
- LEGAL: Lot: 3, Block: 153, San Jacinto Heights Addition to the City of Amarillo, Potter County, TX
- INTERESTED PERSONS: Joe Don Wright, Geneva Carol Wright, 2200 SW 7th Ave Apt 506, Amarillo TX 79106-6775
- NATURE OF NUISANCE: This property consists of a fire damaged residential structure, an accessory structure and an old foundation. The structures are unsecured and full of discarded items. Little effort has been made to abate the hazard. They are an attractive nuisance to the neighborhood and are considered to be fire, health and safety hazards.

SECTION 2. This Council hereby finds the Interested Persons failed, neglected, or refused to comply with the Initial Notice of violation to repair or rehabilitate; or to demolish the Dangerous Structure or portion thereof; or, to timely and substantially complete the terms of a Provisional Permit and determines that each of the improvements, buildings and structures described herein are dangerous structures, are structurally unsafe, constitute a fire hazard and are dangerous to human life, and their continued use will constitute a hazard to the safety, health and public welfare and each are hereby declared to be a public nuisance.

SECTION 3. This Council has deliberated its decision, giving due consideration to and weighing the following factors: validity of the violations as alleged by the Building Official; the severity of such violations and any corresponding danger to the public; due regard for private property rights; fair opportunity for the Interested Persons to have been notified of the problems and a corresponding opportunity to repair, remediate, or remove the defects or Dangerous Structure; weighing the private property interests of neighbors affected by further delay or deterioration of the subject property; and any other relevant consideration unique to the circumstances of this case which may materially affect due process and equal protection of involved persons.

- ii \_\_\_\_\_ finding the Structure or any other improvement of any kind, or any part thereof, is dangerous and ordering its removal ten (10) days after notice of decision; or,

The reprieve granted under this subsection shall expire upon the later of the expiration of time to apply for and obtain a provisional permit or the expiration of such permit. If at expiration of the reprieve the Building Official finds that the defects that gave rise to the finding of a Dangerous Structure have been abated, then the prior order of the City Council to remove the structure is moot; or, if the defects remain, then the Building Official shall proceed to carry out the City Council's prior order to remove the Dangerous Structure; or,
  
- iv \_\_\_\_\_ good cause exists to defer the adjudication of the case and directing reinstatement or extension of a prior provisional permit, for a period of time determined by the City Council not exceeding sixty (60) days from date of the hearing. WHEREAS, this Council finds that the notice of the Building Official to remove rubbish, trash, solid waste and/or unsanitary matter has not been complied with;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF AMARILLO, TEXAS:

SECTION 1. The City Council finds that the alleged nuisance condition, address thereof, the legal description of same, and the Interested Persons are as follows:

ADDRESS: 3719 Rio Grande St

LEGAL: Lot: 19, Block: 2, Industrial City Addition to the City of Amarillo, Potter County, TX

INTERESTED PERSONS: Gary Don Smith, c/o MRL, 99 S Taylor St, Amarillo TX 79101-1546

NATURE OF NUISANCE: This property consists of a partially collapsed accessory structure. The structure is in danger of fully collapsing onto the adjacent property. Little effort has been made to abate the hazard. It is an attractive nuisance to the neighborhood and is considered to be a fire, health and safety hazard.

SECTION 2. This Council hereby finds the Interested Persons failed, neglected, or refused to comply with the Initial Notice of violation to repair or rehabilitate; or to demolish the Dangerous Structure or portion thereof; or, to timely and substantially complete the terms of a Provisional Permit and determines that each of the improvements, buildings and structures described herein are dangerous structures, are structurally unsafe, constitute a fire hazard and are dangerous to human life, and their continued use will constitute a hazard to the safety, health and public welfare and each are hereby declared to be a public nuisance.

SECTION 3. This Council has deliberated its decision, giving due consideration to and weighing the following factors: validity of the violations as alleged by the Building Official; the severity of such violations and any corresponding danger to the public; due regard for private property rights; fair opportunity for the Interested Persons to have been notified of the problems and a corresponding opportunity to repair, remediate, or remove the defects or Dangerous Structure; weighing the private property interests of neighbors affected by further delay or deterioration of the subject property; and any other relevant consideration unique to the circumstances of this case which may materially affect due process and equal protection of involved persons.

SECTION 4. This Council now finds that a public nuisance exists, and has not been timely abated, and now issues the following order(s):

*[Select one of the following for structural issues and/or go to next page for trash and weeds]*

- i \_\_\_\_\_ the Structure is not a dangerous one or one marked by accumulation of vegetation, debris or trash, and ordering the matter be dismissed and City to dismiss the notice filed in the county real property records; or,
  
- ii \_\_\_\_\_ finding the Structure or any other improvement of any kind, or any part thereof, is dangerous and ordering its removal ten (10) days after notice of decision; or,
  
- iii \_\_\_\_\_ the Structure is a danger and ordering its removal ten (10) days after notice of decision, however, further finding that good cause exists to grant a reprieve on that order to allow the Interested Persons in the property to seek to qualify for and obtain a provisional permit during that period, and if obtained then the reprieve shall continue for the duration of such permit or successor permit, as provided in this Section. The reprieve granted under this subsection shall expire upon the later of the expiration of time to apply for and obtain a provisional permit or the expiration of such permit. If at expiration of the reprieve the Building Official finds that the defects that gave rise to the finding of a Dangerous Structure have been abated, then the prior order of the City Council to remove the structure is moot; or, if the defects remain, then the Building Official shall proceed to carry out the City Council's prior order to remove the Dangerous Structure; or,
  
- iv \_\_\_\_\_ good cause exists to defer the adjudication of the case and directing reinstatement or extension of a prior provisional permit, for a period of time determined by the City Council not exceeding sixty (60) days from date of the hearing. If at the end of the deferral period, the Building Official finds that there has been no substantial progress toward abatement of the defects, then such fact shall be reported to the City Manager who shall request the City Council to set a new hearing and proceed with an adjudication of whether the Structure is dangerous or not, in accordance with the procedures of the Amarillo Municipal Code Sec. 4-3-3 subsection (e).

*[Use this option for trash, weeds, etc., either singly or in addition to one of the above]*

v\_\_\_\_\_ The Interested Persons of the Lot, Tract, or Parcel of land with accumulation of rubbish, trash, solid waste and/or unsanitary matter described in the notice of violation are hereby ordered to take down and/or remove the same from the premises within ten (10) days from this order.

SECTION 5. If the Interested Persons of the dangerous structures shall fail, neglect or refuse to comply with this resolution as herein directed, then the Building Official is hereby directed to proceed with the demolition of the various dangerous structures and/or removal of any and all rubbish, trash, solid waste and unsanitary matters described in this resolution, and he may prosecute the Interested Persons as a violator of the provisions of the International Building Code and the Amarillo Municipal Code.

SECTION 6. The Building Official is further directed to determine the cost of such demolition and/or removal and to levy such assessments against the real estate as may be provided by law.

SECTION 7. That should any part of this resolution conflict with any other resolution, then such other resolution is repealed to the extent of the conflict with this resolution.

SECTION 8. That should any word, phrase, or part of this resolution be found to be invalid or unconstitutional, such finding shall not affect any other word, phrase or part hereof and such shall be continue in effect.

SECTION 9. That this resolution shall be effective on and after its adoption.
