## **Frequently Asked Questions:**

### **Why must my booth be screened in and what part of my booth is required to be screened in?**

The requirement to screen in a "food preparation" area is set forth in 228.222(k)(1-3) of the 2015 Texas Food Establishment Rules. These rules actually require this screening to be used year round but allows for municipalities to modify this requirement based on the absence of flying insects. The City of Amarillo has adopted the June 1-November 1 time frame due to this being fly season in the geographical area. To clarify, the food preparation area is only where actual food preparation is being conducted on site; E.g. Slicing or cutting meats, wrapping burritos, cutting vegetable and so on and so forth. Once the food preparation has been completed in an area that is screened in then it can be removed and placed in a serving location in covered pans for example. The serving area must still have at minimum overhead protection.

### **What is a temporary food establishment?**

Per the Texas Food Establishment Rules:

**§228.2 (135)** (143) Temporary food establishment--A food establishment that operates for a period of no more than 14 consecutive days in conjunction with a single event or celebration.

### **Why do I need a temporary permit?**

Per City of Amarillo Municipal Code, Sec. 8-5-16:

- Any person or association whether incorporated or unincorporated who operated a Food Establishment at a fixed location for a period of time no more than fourteen (14) consecutive days in conjunction with a single event of celebration shall obtain a Temporary Permit for each separate location prior to the commencement of any such operation.
- A permit for a temporary Food Establishment is required for each day and each booth. Failure to obtain a Temporary Permit when required constitutes an offense in accordance with Section 8-5-4 of this code.

### **Do I need a temporary permit if the food is prepackaged?**

**No**, if you are only serving pre-packaged Non-TCS food items (Ex: chips, water bottles, cokes, candy bars in the original packaging) you will be exempt from permitting.
